

## **Mission of Mercy Champions Program**

The Champions Program was created to raise awareness about the Mission of Mercy by informing local residents, businesses, and the community at large about the services and resources the organization provides. The goal of the program is to create a deep connection between the community of Maricopa County and the Mission of Mercy. This program is one of the most important links between the Mission of Mercy and the local community. The connection between a Champion and their local community helps to foster education, awareness, appreciation and, most importantly, hope.
